of them. #1 would increase the Cash Fund Appropriation to the Department of Motor Vehicles in the amount of \$50,234 because they run into a problem of increased cost of license plates material. That would take care of the first item. The second item, after thorough review of the expenditure pattern of the Governor's Emergency Fund over the years and recognizing that the Governor did take from his Emergency Fund money to pay for the National Guard bonuses, the second amendment would reduce the General Fund appropriation to the Emergency Fund in the Military Department to \$250,000. The third item increases the Cash Fund ceiling for Mental Health in the Department of Public Institutions budget and this is a technical amendment so that it assists, from a procedural standpoint, cooperation between the local Community Health Centers and the Department of Public Institutions so that there is money that passes through those local Community Mental Health Centers and they need this additional flexibility as far as cash is concerned and finally in the Department of Public Welfare, there is a transfer from Aid programs to State Supervision costs. The original request was \$300,000. This is strictly an inter-agency transfer and this reduces that transfer to \$195,000. Now, Mr. President, I move that the General File amendments as explained to LB 529 be adopted.
